

# Navy COOL Mobile Application

## Now Available for Download to Apple iOS and Google Android Mobile Devices!

An official US Navy mobile application, produced by the Navy PMW 240 Program

### What is the Navy COOL Mobile Application?

Navy COOL offers major elements of the US Navy’s Credentialing Opportunities On-Line (COOL) website in a convenient app. The app is essentially a toolbox - or COOLbox - that provides Sailors and others with a set of credentialing and career tools to help them make informed professional development decisions throughout their Navy career and beyond. Navy COOL tools provide information for making enlistment decisions, roadmaps to career advancement and retention, in-Service civilian/industry certification and licensing opportunities, and insights into prospective occupations during the eventual transition from the Navy back to the civilian workforce.

Navy COOL tools are relevant to all Navy applicants, current Sailors, transitioning Sailors, Veterans, counselors, recruiters, credentialing organizations, employers, and others. The app is geared toward both military and civilian users, and features public content only. No authentication or authorization required. Navy COOL helps Navy Service members find information on certifications and licenses related to their jobs, including detailed information on:

- » Credentials related to Navy ratings, designators, and collateral-duty/out of rate assignments
- » Credential requirements and potential gaps between Navy training and civilian credentialing requirements
- » Resources available to fill gaps between military training and civilian credentialing requirements

Upon launch of the app, users select an Enlisted rating or Officer designator and Collateral duties. Once this is chosen, Navy COOL filters content to only display data relevant to the user’s selection. The app includes tools related to the following:

- » Credentials (certs and licenses mapped to Navy occupations)
- » Learning and Development Roadmaps, or LaDRs (career development)
- » US Military Apprenticeship Program, or USAMAP (Dept. of Labor credentials)
- » Joint Service Transcript, or JST (generic/non-PII; academic credit for Navy training and experience)
- » Civilian-related Occupations (recruiting and transition tool)
- » Rating Information Cards (Navy Recruiting, reclassification, and enlisted rating changes)
- » Post 9-11 Government Issue (G.I.) Bill funding of credentials (funding availability for Veterans)

Spend a little time getting acquainted with Navy COOL by reviewing the “How To” links at the top of the app. Then dive into your occupation-specific information. Welcome to ‘your’ COOL tools!

### Download Navy COOL and get the app in your hands NOW!
