## NETC Announces 2014 Training Excellence Awards

PENSACOLA, Fla. -- The commander, Naval Education and Training Command (NETC) announced the winners of the 2014 Training Excellence Awards (TEA) Feb. 3, honoring superior accomplishment in supporting NETC's mission.

These annual awards recognize commands that demonstrate the highest standards of training excellence in meeting fleet established requirements.

"Delivering the highest standards of training and education ensures that our Navy continues to be the best in the world," said Rear Adm. Mike White, NETC commander. "The winners of this year's Training Excellence Awards epitomize the highest degree of training excellence found throughout the NETC enterprise and represent thousands of instructors and support staff around the globe. They all work exceptionally hard delivering cutting-edge training, ensuring that highly-trained, top-quality Sailors are available to meet the needs of the fleet."

The Training Excellence Award competition structure resembles the Battle Effectiveness (Battle "E") competition held throughout the fleet; recognizing sustained superior performance in an operational environment within a

command.

At the end of the year, each NETC training headquarters directorate assesses the learning centers and training support centers based on established performance measures, and total the results. Areas evaluated include results of Inspector General (IG) and safety visits, how well the staff manages training and student throughput, correct handling of specialty items such as ordnance, radiation, high-risk training.

TEA Board Coordinator Dorothy Singleton noted that winning in the TEA categories is no easy task.

"The 2014 TEA competition details the incredibly hard work performed in and behind the classrooms," said Singleton. "The bottom line is delivering training that meets fleet requirements, and each of the winners demonstrated significant improvements and accomplishments as they carried out NETC's strategic goals."

NETC training activities and those that conduct NETC training courses are eligible for TEA awards. The competition is composed of three categories - the Learning Center Training Excellence "T" Award, the Training Support Center Training Support Excellence "TS" Award and Functional Excellence Awards.

The 2014 award winners include:

Learning Center Training Excellence (White T) Award:

- Center for Personal and Professional Development, Virginia Beach, Virginia

Training Support Center Training Support Excellence (White TS)

Award:

- Training Support Center San Diego, San Diego, California
