

The JFSC encourages Service Engineers to attend the Joint Engineer Operations Course (JEOC) as a follow on civil engineering focused educational opportunity to the JFSC

The JEOC teaches students to understanding sister service engineer capabilities and considerations for joint engineer staff and prepares engineers for future joint deployments, staff assignments, and homeland operations. It also prepares engineers from all military services for assignment to a Joint Task Force. The course focuses on joint engineer doctrine, service engineer capabilities, and how to use service engineer capabilities in support of joint and service engineer requirements.

JOINT ENGINEER OPERATIONS COURSE (JEOC)

**Sponsored by:
Joint Operational Engineer Board
(JOEB)**

**Under Direction of the
US Army Engineer School**

Phone: 573-563-5088

Fax: 573-563-8049

E-mail: shawn-howley@us.army.mil

On-line Enrollment

- ◆ You will need an Army Knowledge Online (AKO) account. To register, use your exiting account, or go to www.us.army.mil and click "I accept" then click "Register with a CAC" to establish an account.
- ◆ Or, enroll on-line through the Army Engineer School Blackboard site at <https://engineer.bb.wood.army.mil>.
- ◆ Click "English" then enter your AKO login/password. Click "Courses", then click "Browse Course Catalog." Under "Course ID," use the pull down menu to select "Enroll," and click "Submit".
- ◆ Or enroll on-line through US Army ATRRS Portal, select class 4A-F16/030-F20 to complete the on-line portion of the course.
- ◆ Request a resident seat through the JEOC Administrator, Mr. Dwayne Boeres, at: Dwayne.boeres@us.army.mil; Phone: 573-563-7065
- ◆ Complete the Resident Phase
- ◆ Receive 1.0 Joint Professional Military Education Credit

Expected Outcomes:

- ◆ Sustained joint engineer readiness delivered to the joint force commander that enables operational adaptability and freedom of action.
- ◆ Improved trust and confidence that joint engineers will provide required capabilities and resources ant the right

Resident Class Schedule 2014-2015

JEOC Class 15-01

27-31 Oct 2014, Quantico, VA

JEOC Class 15-02

20-24 April 2015, Ft. Leonard Wood, MO

JEOC Class 15-03

11-15 May 2015, Pt. Hueneme, CA

JEOC Class 15-04

22-26 June 2015, Wright-Patterson AFB, OH

JEOC Class 15-05 (AFRICOM/EUCOM)

Late Feb 2015, Grafenwoehr, Germany

JEOC Class 15-06 (PACOM)

14-18 Sep 2015, Pearl Harbor, HI

Helmand Province, Afghanistan

Case for Change:

Shifting from Lessons Learned to Lessons Applied

The joint engineer community has made great strides with amazing improvements in our support to the warfighter during the current fight. Our flexibility and responsiveness is the key to our success in meeting the pressures of these challenges. The Iraqi surge and its resultant growth, the changes in strategy shifting from Iraq to Afghanistan, and the improved engineer organization with the integration of the expeditionary Prime BEEF organizations are just a few examples of the success of the joint engineer community.

Joint Chiefs of Staff

The JEOC is a Joint Engineer Staff course under the Joint Staff/J-4 (Logistics Directorate), sponsored by the Joint Operational Engineering Board (JOEB). The course consists of 4 classes per year with a 40-hour distance learning phase and a 40-hour resident phase. Each class consists of 60 multi-service engineer students. The course is designed to support the operational readiness requirements to effectively execute joint engineering staff requirements.

Course Curriculum

- ◆ *Service Engineering Capabilities*
- ◆ *Environmental Considerations*
- ◆ *Defense Support to Civil Authorities*
- ◆ *Joint Staff Engineer Roles and Integrations*
- ◆ *Force Sourcing Process*
- ◆ *JTF Engineer Theater Observations*
- ◆ *Joint, Interagency, Intergovernmental, Multinational, Industry, and Academia (JIIM-IA)*
- ◆ *Geospatial Considerations*

Course Offerings

The course is offered on a rotational basis at the Service Institutions or Engineering Schools including the: U.S. Marine Corps University (USMCU), U.S. Army Engineer School (USAES), U.S. Air Force Institute of Technology (AFIT), and the U.S. Navy Civil Engineer Corps Officers School (CECOS).

Patrol Base Mahawil, Iraq
