

We all took an oath...

I solemnly swear that I will support and defend the Constitution of the United States of America against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office upon which I am about to enter; So help me God.

Special Trust and Confidence

Command is the foundation upon which our Navy rests. Authority, responsibility, and accountability are three essential principles which are the heart and soul of command. Effective command is at risk if any of these principles are lacking or out of balance. Further, a Commanding Officer's authority must be commensurate with his or her responsibility and accountability. This immutable truth has been the very foundation of our Navy since 1775.

Virtue, Honor, Patriotism

DEFINITION OF MEASUREMENT TERMS

I. Know: Recall facts, bring to mind and recognize the appropriate material.

Examples:

- Know the major missions of the U.S. Army, U.S. Air Force, and U.S. Coast Guard.
- Know basic flag etiquette and proper display of basic Navy flags and pennants.

II. Comprehend: Interpret principles and concepts and relate them to new situations.

Examples:

- Comprehend shipboard safety and preparedness.
- Comprehend the moral and ethical responsibilities of the military leader.

III. Apply: Utilize knowledge and comprehension of specific facts in new relationships with other facts, theories, and principles.

Examples:

- Apply the fundamentals of Operational Risk Management and Time Critical Risk Management.
- Apply leadership skills to achieve objectives.

IV. Demonstrate: Show evidence of ability in performing a task.

Examples:

- Demonstrate the skills required for a Skipper 'B' Qualification.
- Demonstrate personal physical fitness by conforming to Navy or Marine Corps physical fitness testing standards.

LETTER OF PROMULGATION

The Navy Leader Development Strategy (NLDS) establishes the common framework for all Navy leader development - officer and enlisted. This Professional Core Competency (PCC) manual operationalizes the officer continuum of the NLDS, establishing the foundational standards of “officership” by delineating core competencies required of all officer accession programs:

United States Naval Academy (USNA)
Naval Reserve Officers Training Corps (NROTC)
Strategic Sealift Midshipman Program (SSMP)
Officer Candidate School (OCS)
Officer Development School (ODS)
Direct Commission Officer Indoctrination Course (DCOIC)
Limited Duty Officer/Chief Warrant Officer Academy (LDO/CWO)
Seaman to Admiral - 21st Century (STA-21)

While each accession source’s mission statement varies slightly in wording, all are charged with *morally, mentally and physically developing future Leaders of Character and Competence - imbuing them with the highest ideals of Honor, Courage, and Commitment in order to serve as professional Naval Officers worthy of our nation’s special trust and confidence.* In recognition of officership as a true “profession” and the “special trust and confidence” vested in officers by virtue of their commissions and the “charge of command,” this manual defines the professional knowledge, skills, and abilities required of all basically trained officers entering naval service.

This PCC manual shall be referenced when developing/updating officer accession curricula. While minimum standards based on fleet requirements are delineated, this manual does not intend to limit the depth or breadth to which these competencies can be covered. Programs may train beyond these minima when time and resources permit. Academic/scholastic requirements for professional certification/licensing are governed by community-specific policy and are not addressed by this manual. Additionally, undergraduate requirements and standards at both USNA and NROTC with regard to major, required courses, and GPA are also addressed by other Navy policy and are specifically not addressed in this manual.

This update of the PCC manual was not guided solely by the NLDS; it was aligned with several leadership imperatives not previously synchronized by a single strategy:

- The Charge of Command
- Naval Officership and the Profession of Arms
- Ethics in the Navy – Moral Responsibility and Decision Making
- Critical thinking, Decision making, and Innovation
- Seapower and Maritime Strategy
- Language, Regional Expertise and Culture

This update was the product of the formal Human Performance Requirements Review (HPRR) process and incorporated fleet input from across all communities. Unique to this 2015 Officer PCC HPRR was the use of an innovative crowd-sourcing platform called MMOWGLI (Massive Multiplayer Online War Game Leveraging the Internet).

As the true “core” competencies of a profession are naturally enduring, much of the specific content of this manual is unchanged from prior versions. The organization of the manual, however, has undergone significant update and revision to better align with strategic priorities as described in the Executive Summary.

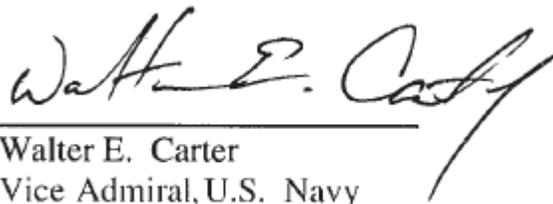

The essence of officership is most succinctly captured by the Oath of Office – our solemn promise to support and defend the Constitution and to well and faithfully discharge the duties of the office. Understanding and truly *living the relationship of the Oath to Navy core values* is the fundamental Leader Development Outcome of the basically trained officer.

The NLDS establishes the framework for a comprehensive career-long *Navy Leader Development Continuum* integrating four elements – *experience, education, training, and personal development*. *Experience*, the primary means by which leaders develop, merely starts with the accession program. The *education and training* behind these PCCs are the means that enable new officers to better learn from experience. These core competencies form the initial foundation that binds us together as trusted members of a profession.

Recommendations for changes to this manual should be submitted using the Feedback Procedures in Appendix I.

This manual is approved for implementation upon receipt. PCC Manual (April 2011) is hereby cancelled and superseded. The PCC Manual will be reviewed on a quadrennial basis heretofore.

REVIEWED AND APPROVED:

Walter E. Carter
Vice Admiral, U.S. Navy
Superintendent, USNA

Stephen C. Evans
Rear Admiral, U.S. Navy
Commander, NSTC

“As stewards of the Navy as a profession of arms, we must develop our leaders with the same intensity with which we develop our weapons systems – and to do so as an ‘All Hands’ effort.”

~Admiral Jonathan Greenert – Navy Leader Development Strategy

EXECUTIVE SUMMARY

This Professional Core Competencies (PCC) Manual is aligned to the Navy Leader Development Strategy (NLDS) and delineates the knowledge, skills and abilities that basically trained Naval Officers must possess upon graduation from an accession program. These requirements fall into the following six major competency areas:

- I. NAVAL ORIENTATION AND OFFICERSHIP
- II. LEADERSHIP AND ETHICS
- III. SEAPOWER AND NAVAL HISTORY
- IV. PROGRAMS AND POLICIES
- V. TECHNICAL FOUNDATIONS AND NAVAL WARFARE
- VI. SEAMANSHIP AND NAVIGATION

Some of these major competency areas have been renamed to more accurately reflect the current content across schoolhouses and have been reorganized to better align with strategic imperatives. The individual appendices for each officer program outline specific deviations from the basic core (deletions, additions and/or changes in level of training taxonomy) wherein the PCC in question is specifically not germane to the community or reasonably achievable given time/resource constraints of the specific program.

Appendix A	United States Naval Academy (USNA)
Appendix B	Naval Reserve Officers Training Corps (NROTC)
Appendix C	Strategic Sealift Midshipman Program (SSMP)
Appendix D	Officer Candidate School (OCS)
Appendix E	Officer Development School (ODS)
Appendix F	Direct Commission Officer Indoctrination Course (DCOIC)
Appendix G	Limited Duty Officer/Chief Warrant Officer Academy (LDO/CWO)
Appendix H	Seaman to Admiral - 21 st Century (STA-21)

*“Men mean more than guns in the rating of a ship.”
John Paul Jones*

I. NAVAL ORIENTATION AND OFFICERSHIP

A basically trained officer must know and understand the fundamentals of Naval Officership as a profession. These fundamentals include but are not limited to the Officer's Oath as related to Navy Core Values, naval customs and traditions, military drill, uniform wear, watchstanding, and basic elements of naval regulations.

A. Comprehend the role of commissioned officers as members of the U.S. Armed Forces and know the obligations and responsibilities assumed by taking the oath of office and accepting a commission including the Constitutional requirement for civilian control.

1. Comprehend the Naval officer's roles and responsibilities as a member of the profession of arms.
2. Comprehend the significance of special trust and confidence vested in commissioned officers.

B. Know uniform regulations.

1. Demonstrate proper uniform wear and military grooming standards.
2. Demonstrate personnel inspection procedures.

C. Demonstrate marching, formations and basic drill maneuvers.

1. Demonstrate close order drill.
2. Know proper execution of the officer's sword manual.

D. Comprehend the UCMJ, practice of military law, and applications of regulations as they may involve a junior officer in the performance of duties.

1. Comprehend the purpose, scope, and constitutional basis of Navy Regulations and the Uniform Code of Military Justice and relate these regulations to personal conduct in the military service.
2. Comprehend junior officer responsibilities relative to the military justice system including familiarization with:
 - (a) essential publications relating to military justice.
 - (b) search and seizure.

- (c) apprehension and restraint.
- (d) non-judicial punishment.
- (e) investigations.
- (f) courts martial.
- (g) administrative discharges.
- (h) extra military instruction.

E. Know the requirements for watchstanding, and be able to demonstrate a proper watch relief and the requirements, procedures, and format for keeping logs.

- 1. Know basic Navy terminology and professional nomenclature.

F. Know the origins and current usage of naval customs and traditions.

- 1. Demonstrate military courtesies such as saluting, introductions, and forms of address.
- 2. Know basic shipboard etiquette, flag etiquette and proper display of basic Navy flags and pennants.
- 3. Demonstrate proper protocol with respect to quarterdeck procedures, wardroom etiquette, and small boat/vehicle etiquette.
- 4. Know military ceremonial functions including colors, parade formations, and changes of command.
- 5. Know social customs and basic protocol for formal and informal functions to include receiving lines, dining outs, mess night, and the Navy/USMC birthday ball.

G. Comprehend command relationships and organization.

- 1. Know command relationships and organization for both operational and administrative environments as prescribed by the SORM.
- 2. Know the Navy and Marine Corps officer and enlisted rank/paygrade structures and insignia.
- 3. Know the officer ranks in the Army, Air Force, and Coast Guard.
- 4. Know relevant Navy and Marine Corps unrestricted and restricted line communities and applicable warfare insignias.

II. LEADERSHIP AND ETHICS

A basically trained officer must understand the relationship between the Oath of Office and Navy Core Values, have personal values consistent with Navy Core Values, practice sound judgment while enforcing rules and regulations, and be a valued team leader who fosters loyalty up and down chain of command. The core competencies in this area include but are not limited to critical thinking, effective communication, planning and decision making, basic leadership and management principles, and classical ethics as related to moral decision making.

- A. Comprehend the relationship of the Oath of Office to Navy core values.
 - 1. Know and recite the Oath of Office.
 - 2. Comprehend the significance of special trust and confidence vested in commissioned officers as members of the profession of arms.
 - 3. Comprehend the basic elements of the Constitution of the United States.
 - 4. Know the Navy Ethos.
- B. Know and comprehend the Navy Leader Development Strategy.
 - 1. Know the Charge of Command.
 - 2. Comprehend the relationship between authority, responsibility, and accountability.
 - 3. Comprehend the leader development elements of experience, education, training, and personal development.
- C. Comprehend the professional, moral and ethical responsibilities of the Naval Officer.
 - 1. Comprehend the relationship of integrity, moral courage, and ethical behavior to authority, responsibility, and accountability.
 - 2. Demonstrate, by personal example, the professional attributes and behaviors of a Naval Officer.
 - 3. Know the International Law of Armed Conflict including Rules of Engagement (ROE), conduct of hostilities, rights of individuals, obligations of engaged parties, and the Code of Conduct for members of the U.S. Armed Forces.

D. Demonstrate an understanding how the following influence an officer's ability to effectively lead in an organization:

1. Importance of officers leading by personal example.
2. Prioritization of Constitution, mission, service, command, shipmate and self.
3. Use of authority.
 - (a) Definition of a lawful order.
 - (b) Process for challenging unlawful orders.
4. Conveyance of clear and concise Commander's Intent.
5. Degree of delegation and decentralization.
6. Officer-enlisted professional relationship.
7. Fostering loyalty up and down the chain of command.
8. Morale and esprit de corps.
9. Supervision and follow-up.
10. Time management and prioritization.

E. Demonstrate an understanding of basic counseling skills.

1. Comprehend the importance of feedback to mission effectiveness.
2. Comprehend motivational techniques which may be useful in leadership situations.
3. Apply counseling skills to performance evaluation debriefings, discipline infractions, career guidance, and personal problems.

F. Know the importance of deliberate planning and the military decision making process.

1. Know the elements and intellectual standards of critical thinking.
2. Know the importance of properly developed mission statements and objectives.

G. Apply leadership skills to achieve objectives.

1. Comprehend the relationship between goal setting and feedback and apply this understanding to measurements, inspections, and reports.
2. Apply techniques and skills to measure organizational effectiveness by establishing qualitative and quantitative performance standards.
3. Comprehend different leadership styles and how they apply to different situations.
4. Comprehend basic principles of human behavior and group dynamics.
5. Comprehend the characteristics of informal and formal groups.
6. Apply leadership and management skills to design work groups based on task requirements, group capability, and available resources.
7. Know the importance of diversity and inclusion when leading an organization.
8. Know the importance of fostering innovation when leading an organization.

H. Demonstrate the ability to communicate effectively.

1. Demonstrate effective oral and written communication.
2. Comprehend different forms of naval correspondence.

I. Know the basic elements of the assignment process, career planning (including the requirement for Joint Duty), promotions, milestones and career paths for Navy/USMC.

J. Know the Navy/USMC training and qualification process (PQS, JQR and Warfare qualification).

1. Comprehend the importance of training and qualification to personal/professional development and mission readiness.
2. Know the importance of continuing education, professional reading, and lifelong learning to professional and personal development as a leader and Naval Officer.
3. Know the availability and applicability of the CNO's Professional Reading program to personal development.

III. SEAPOWER AND NAVAL HISTORY

A basically trained officer must understand Seapower as a critical element of national security and prosperity for the United States of America in both peace and war. A basically trained officer must understand the missions and functions of the Navy and the role of naval forces in protecting the global maritime commons, deterring potential adversaries, and fighting/winning our nation's wars when required. The core competencies in this area include but are not limited to maritime strategy, missions and functions of the Navy, geography as related to maritime strategy, the evolution of sea power, and the history of the U.S. Navy and USMC.

A. Comprehend current maritime strategy.

1. Comprehend the relationship of seapower to national interests and maritime strategy in both peace and war.
2. Know the impact and significance of geography and Sea Lines of Communication on maritime strategy and naval operations.
3. Know the missions and functions of the U.S. Navy as described in maritime strategy.
4. Comprehend the importance of maritime partnerships and coalition operations.
5. Comprehend the importance of regional and cultural expertise/awareness to naval forces' ability to successfully plan, operate forward, and engage effectively.
6. Comprehend the importance of a forward naval presence to maritime strategy through forward stationed and rotationally deployed forces.
7. Know major aspects of the U.S. position on United Nations Convention on the International Law of the Sea (UNCLOS) regarding territorial seas, contiguous zones, high seas and rights of innocent passage and the impact of UNCLOS on maritime strategy.
8. Comprehend the concept of "liberty as a mission" as related to port visits, engagement, and theater security cooperation.

B. Comprehend the mission and basic organization of the Navy and Marine Corps:

1. Know the operational and administrative chains of command within the Department of the Navy.

2. Know the names and locations of the numbered Fleets and naval component commands.
 3. Know the basic size and composition of the Navy (platforms and personnel).
 4. Know the roles, responsibilities, and organization of the Reserve Component.
- C. Know the missions and basic organization of the major components of the other services.
1. Know the current organization of the Department of the Navy and the relationship of Navy organization to Department of Defense, Joint Chiefs of Staff, and the unified and specified commands.
- D. Know the basic concepts and philosophies of Joint Warfare.
1. Know basic military staff organization (N, S and J-codes).
- E. Know significant events in U.S. naval history.
1. Know the evolution of the Navy and Marine Corps including the origins of the service along with prominent leaders and their contributions.
 2. Know the role naval forces have played in the national strategies and policies of the United States in both peacetime and war.
 3. Comprehend the historical evolution of sea power and its effects on world history.
 - (a) Comprehend the importance of power projection by seaborne forces and cite historical examples.
 - (b) Know the significant historical developments of naval weapons systems, platforms, tactics, techniques, and procedures.
 4. Know the history of the Reserve component.
 5. Comprehend the importance of innovation on naval warfare.

IV. PROGRAMS AND POLICIES

A basically trained officer must possess a working knowledge of Navy programs and policies. The core competencies in this area include but are not limited to professional administrative responsibilities, personnel management, classified material handling, UCMJ and Navy Regulations, naval correspondence, fitness and wellness programs, and safety and environmental programs.

A. Know basic administrative responsibilities of an officer including:

1. Personnel administrative actions with regard to officer and enlisted service records, performance evaluations, advancement recommendations, promotions, and selection board procedures.
2. Know governing documents for naval correspondence.
3. Know how directives are organized and revised.
4. Know importance of documenting and evaluating training.

B. Know basic requirements and procedures for proper handling and disclosure of classified material, consequences for inadvertent disclosure, and consequences for violation of the espionage laws, including:

1. Maintenance of classified material security, including techniques for avoiding technology transfer.
2. Disclosure (clearance and need to know).
3. Basic security classifications and their corresponding handling requirements.

C. Comprehend all current Navy and Marine Corps commissioning sources as they relate to both peers and subordinates.

D. Comprehend the UCMJ, practice of military law, and applications of regulations as they may involve a junior officer in the performance of duties.

1. Comprehend the purpose, scope, and constitutional basis of Navy Regulations and the Uniform Code of Military Justice and relate these regulations to personal conduct in the military service.

2. Comprehend and demonstrate adherence to the standards of conduct for military personnel.

E. Comprehend current Navy or Marine Corps regulations, policies, and programs relative to the following fitness and wellness issues:

1. Substance and alcohol abuse prevention and detection, including urinalysis testing programs, treatment, and consequences.
2. Physical readiness, nutrition, and weight control.
3. Operational Stress Control.
4. Suicide Prevention.
5. Athletics, recreational, and off-duty safety.
6. Demonstrate personal physical fitness by conforming to Navy or Marine Corps physical fitness testing standards.
7. Demonstrate a fit military appearance by conforming to applicable Navy or Marine Corps body fat percent and/or height-weight standards.
8. Demonstrate fundamental swimming skills through successful completion of Third Class swimmer qualifications.

F. Know Navy safety, energy, and environmental programs.

1. Apply the fundamentals of Operational Risk Management and Time Critical Risk Management.
2. Know Navy energy policy, energy goals, and Fleet energy initiatives.
3. Comprehend the operational, legal, and stewardship importance of compliance with environmental policies and programs both afloat and ashore.

G. Know financial, medical, retirement, and other benefits available to military personnel.

1. Know the basic elements of personal financial management.
2. Know current policies and programs relative to educational opportunities.

H. Know the following Navy programs and policies:

1. Comprehend and apply current equal opportunity policies and programs.
2. Comprehend and apply the official policies on prevention of sexual harassment, fraternization, and hazing.
3. Comprehend the official policies for Sexual Assault Prevention and Response including Bystander Intervention.
4. Know the policies regarding pregnancy, family care plans, EFMP, and family readiness.
5. Know Navy programs and policies on diversity and inclusion.
6. Comprehend the Personally Identifiable Information (PII) program and policies.
7. Know travel regulations and government credit card program.

V. TECHNICAL FOUNDATIONS AND NAVAL WARFARE

A basically trained officer must have fundamental technical knowledge and understand basic principles of naval warfare in order to capably lead our technologically advanced Navy. The core competencies in this area include but are not limited to basic engineering fundamentals, naval systems and weapons systems, basic platform characteristics, and basic fundamentals of naval warfare.

A. Know the basic characteristics and capabilities of the major weapons systems and platforms of the U.S. Naval forces.

1. Know the designations, characteristics, capabilities, and missions of ships, aircraft, and weapon systems of the U.S. Navy, Marine Corps, and Strategic Sealift Command.

B. Comprehend basic engineering concepts.

1. Know the concepts of work, power, and efficiency and their application to propulsion systems.

2. Know the basic operation, key components, and safety considerations of propulsion systems.

3. Know the basic principles of auxiliary systems.

4. Know the basic principles of electrical power generation, distribution, and electrical safety.

5. Comprehend the factors and criteria for structural integrity and operational employment in platform design.

6. Comprehend basic principles of fluid dynamics.

7. Know the purpose of the Navy Maintenance Material Management (3-M) system and its PMS and MDS subsystems.

C. Comprehend weapons systems, platforms, and environmental factors.

1. Know the basic threats potential adversaries can employ against Navy platforms.

2. Know what effects chemical/biological/radiological/nuclear (CBR-N) attacks have on the combat environment.

3. Know the operating principles and common uses of platform weapon systems.
4. Comprehend the basic theory and use of radar, sonar, and fire-control systems.
5. Comprehend the basic theory of electronic warfare systems.

D. Know the importance of energy as a critical combat enabler and understand best practices in energy efficiency.

E. Know how each of the following components of naval warfare contributes to the basic sea control and power projection missions of the Naval service:

1. air warfare.
2. undersea warfare (including mine warfare and antisubmarine warfare).
3. surface warfare.
4. strike warfare.
5. amphibious warfare.
6. electronic warfare.
7. mobile logistics support.
8. special warfare.
9. expeditionary warfare.
10. Cyber/C5I warfare (command, control, communications, computers, combat systems, intelligence).

F. Demonstrate an understanding of naval communications and COMSEC.

1. Demonstrate proper radio-telephone communication.
2. Demonstrate communication security procedures.
3. Comprehend cyber/satellite based communications.
4. Know the different bands of radio communication across the spectrum.

- G. Know the significance of intelligence in the application of naval warfare.
- H. Understand the need for OPSEC including recognition of the OPSEC threat.
- I. Know the purpose of the Navy Doctrine Library System (NDLS) and its hierarchy of publications.
 - 1. Know the Composite Warfare Commander (CWC) concept.
 - 2. Know the concepts and publications that govern Navy command and control, doctrine, and tactics.
- J. Know current Anti-Terrorism/ Force Protection (AT/FP) procedures and requirements.
- K. Demonstrate proper handling and firing of U.S. service small arms using current safety procedures.

VI. SEAMANSHIP AND NAVIGATION

As every Naval officer must be a capable mariner - a basically trained officer must understand how to safely operate at sea. The core competencies in this area include but are not limited to shipboard damage control, theory and practice of navigation at sea, basic ship handling, steering and sailing rules for preventing collisions at sea, and understanding and calculating relative motion between maneuvering ships.

- A. Know terms, nomenclature, and use of shipboard deck equipment and fittings.
- B. Comprehend shipboard safety and preparedness.
- C. Demonstrate shipboard damage control.
 - 1. Know the typical shipboard damage control organization and responsibilities of key personnel assigned.
 - 2. Know how shipboard watertight integrity is obtained through installed shipboard features to increase material conditions of readiness.
 - 3. Know the procedures, objectives, and priorities in combating progressive deterioration from fire and underwater hull damage.
 - (a) Know classes of fire and agents, equipment, and procedures used to extinguish them.
 - (b) Know the use of equipment, materials, and procedures for countering progressive flooding and structural deterioration.
 - 4. Know the procedures for donning and doffing damage control breathing equipment.
- D. Comprehend the theory and practice of navigation at sea.
 - 1. Comprehend the longitude/time relationship.
 - 2. Demonstrate time conversion and time zone determination.
 - 3. Know the correct procedures to determine the time of sunrise and sunset.

4. Know the theory and use of electronic navigation systems.
 - (a) Know basic principles of radar navigation.
 - (b) Comprehend operating principles and limitations of GPS and navigation chart datum.
5. Comprehend the uses of navigational datums and the various chart projections.
6. Know chart symbology particularly those symbols pertaining to hazards and dangers.
7. Know how to select the proper charts (both paper and electronic) and how to determine chart accuracy and reliability.
8. Apply correct plotting procedures when navigating in piloting waters.
 - (a) Apply the six rules of dead reckoning in keeping a plot of ship movements.
 - (b) Know the definitions of the terms: track, speed of advance, speed over ground, PIM, EP, LOP, and relative bearing.
 - (c) Know turn and danger bearings.
 - (d) Demonstrate the ability to plot and interpret fixes and running fixes.
9. Know the advantages, disadvantages, and applications of gyro and magnetic compasses.
 - (a) Apply terrestrial navigation methods to determine compass error.
 - (b) Apply magnetic variation to a given location.
 - (c) Know the concept of deviation and the use of the digital flux gate magnetic compass.
10. Know the basic principles of celestial navigation.
11. Know the capabilities and limitations of various instruments used in piloting to determine direction, speed, distance, and depth of water.
12. Know the essential publications and records used in navigation and comprehend their value.

13. Know the characteristics and application of various aids to navigation in piloting and comprehend their importance in safe navigation, including:

- (a) buoyage systems – IALA.
- (b) lights/daymarkers.
- (c) radar beacons/markers.

14. Apply correct procedures in planning and plotting approaches to harbors and anchorages.

15. Comprehend tidal action and know tide classifications and reference planes.

16. Demonstrate the ability to use the Current Triangle to find course and speed made good, set, drift, and compensating course and speed to negate set and drift.

17. Know terms associated with the Terrestrial Coordinate System; equator, prime meridian, great circles, small circles, parallels, meridians, latitude, longitude, and rhumb lines.

18. Comprehend relative motion and demonstrate capability to solve problems associated with relative motion.

- (a) Comprehend the theory of relative motion as graphically displayed by the geographic and relative plot.
- (b) Comprehend the significance of bearing drift and apply bearing drift to determine relative motion.
- (c) Demonstrate the ability to compute target angle.
- (d) Comprehend the speed triangle and the relative plot associated with a maneuvering board (MOBOARD).
- (e) Demonstrate the use of a maneuvering board to accurately:
 - (1) Determine the CPA and time of CPA of an approaching vessel.
 - (2) Determine the true course and true speed of a maneuvering ship.

(3) Determine course, speed, and time for proceeding to a new station or to intercept another vessel.

(4) Determine true wind direction and velocity.

(5) Determine course and speed to produce desired wind.

(6) Determine an avoidance course of a given target.

19. Know the Rules of the Road as found in the USCG Navigation Rules – International and Inland.

20. Know the use of ATP-I Volume II and the International Code of Signals (PUB-102).

E. Know environmental weather factors affecting naval operations.

1. Know the sources of environmental products/predictions/forecasts available to naval units underway.

2. Know the impact of hazardous weather conditions on surface and flight operations at sea.

F. Know controllable and non-controllable forces in shiphandling.

1. Know the effects of controllable forces in shiphandling such as engines, rudders, propellers, lines, anchors, and tugs.

2. Know the effects of non-controllable forces in shiphandling such as wind, current, depth of water, etc.

3. Demonstrate the ability to issue standard commands for engines, rudder, and line handling.

G. Know various systems for internal shipboard communications and demonstrate proper sound-powered phone procedures.

H. Know the basic terms and procedures associated with replenishment at sea.

I. Demonstrate the skills required for a Skipper 'B' Qualification.

APPENDIX A

UNITED STATES NAVAL ACADEMY

“The mission of the United States Naval Academy (USNA) is to develop Midshipmen morally, mentally, and physically and to imbue them with the highest ideals of duty, honor, and loyalty in order to graduate leaders who are dedicated to a career of naval service and have potential for future development in mind and character to assume the highest responsibilities of command, citizenship, and government.”

As the undergraduate college of our country's naval service, the USNA prepares young men and women to become professional officers of competence, character, and compassion in the U.S. Navy and Marine Corps. USNA students are midshipmen on active duty in the U.S. Navy. They attend the Academy for four years, graduating with Bachelor of Science degrees and commissions as Ensigns in the Navy or Second Lieutenants in the Marine Corps.

USNA midshipman are required to complete all requirements listed within Parts I through VI.

APPENDIX B

NAVAL RESERVE OFFICERS TRAINING CORPS

The Naval Reserve Officers Training Corps (NROTC) program was established to develop Midshipmen mentally, morally, and physically and to imbue them with the highest ideals of duty, loyalty, and with the core values of honor, courage, and commitment in order to commission college graduates as naval officers who possess a basic professional background, are motivated toward careers in the naval service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government.

NROTC is a multi-year program that runs concurrently with a student's normal college or university educational course of study. In addition to a normal academic workload leading to a baccalaureate degree, NROTC students attend classes in Naval Science, participate in the NROTC unit for drill, physical training, and other activities, and are taught the leadership principles and high ideals of a naval officer.

NROTC midshipmen are required to complete the following depending on their specific program:

Navy option:

NROTC Navy option Midshipmen are required to complete all requirements listed within Parts I through VI in order to receive a commission.

Nurse option:

NROTC Nurse option Midshipmen are required to complete the requirements listed within Parts I through IV in order to receive a commission.

Marine option:

NROTC Marine Corps option midshipmen are required to attend a six week, Marine Officer Candidate School in Quantico, Virginia, in addition to completing the requirements listed within Parts I - IV and Part V, sections A, D, E, F, G, I, and J. Additionally, Marine Corps option midshipmen are also responsible for the material contained in Chapter four of the most recent version of NAVMC 3500.18.

APPENDIX C

STRATEGIC SEALIFT MIDSHIPMAN PROGRAM

The mission of the Strategic Sealift Midshipman Program is to provide the Reserve Component of the U. S. Navy, a highly qualified cadre of Strategic Sealift Officers through undergraduate degree completion, professional development, and training.

The Strategic Sealift Midshipman Program is an education and training program conducted by the Department of Naval Science at the U. S. Merchant Marine Academy and state maritime academies. These programs are designed to qualify participants for commissioned service. Program administration, eligibility, participation requirements, and training are directed by Naval Service Training Command Officer Development department.

In addition to completing the requirements listed within Parts I through IV, each Strategic Sealift Midshipman must attain the academic and professional licensing and experience credentialing required by their academy in order to receive a commission. The academic and professional credentialing curriculum of the maritime academies generally meets and/or exceeds the competencies contained in Parts V and VI.

APPENDIX D

OFFICER CANDIDATE SCHOOL

Officer Candidate School (OCS) is a commissioning program at Officer Training Command whose mission is to morally, mentally, and physically develop future leaders of character and competence – imbuing them with the highest ideals of honor, courage, and commitment in order to serve as professional naval officers worthy of special trust and confidence.

Officer Candidates attend OCS for 12 weeks culminating with their active duty commissions in the United States Navy. OCS candidates are recruited and accessed specifically to their designator. OCS commissions Ensigns into Surface Warfare, Aviation, Submarines, Naval Special Warfare, Naval Special Operations, Intelligence, Information Dominance, Supply Corp and Civil Engineering Corps.

OCS Officer Candidates are required to complete all requirements listed within Parts I through VI (with the exception of VI, I.) in order to receive a commission.

APPENDIX E

OFFICER DEVELOPMENT SCHOOL

Officer Development School (ODS) is the staff corps officer accession program at Officer Training Command whose mission is to morally, mentally, and physically develop future leaders of character and competence – imbuing them with the highest ideals of honor, courage, and commitment in order to serve as professional naval officers worthy of special trust and confidence.

ODS participants are already commissioned and attend a five week development course to learn the foundational elements of Naval Officership. All active duty Medical Corps, Dental Corps, Nurse Corps, Medical Service Corps, Chaplain Corps, Judge Advocate General Corps, Nuclear Power instructors/engineers, and Cyber Warfare Officers attend Officer Development School.

In addition to completing the requirements listed within Parts I through IV, ODS students complete General Shipboard Firefighting training and Basic Shipboard Damage Control “wet training” while assigned to Officer Training Command.

APPENDIX F

DIRECT COMMISSION OFFICER INDOCTRINATION COURSE

Direct Commission Officer Indoctrination Course (DCOIC) provides the military indoctrination training necessary to prepare participants to function in their role as newly commissioned naval officers. It provides a basic introduction into fundamental aspects of leadership while providing a working knowledge of available references.

DCOIC participants attend a two week course and receive specialized follow-on training to further prepare them for their initial fleet assignment. Participants are required to complete the requirements listed within Parts I through IV.

APPENDIX G

LIMITED DUTY OFFICER/CHIEF WARRANT OFFICER ACADEMY

The Limited Duty Officer (LDO) and Chief Warrant Officer (CWO) Academy is designed to develop newly commissioned LDO and CWO morally, mentally, and physically and imbue them with the highest ideals of honor, courage, and commitment in order to serve in the fleet as professional naval officers worthy of special trust and confidence.

LDO and CWO are commissioned officers with special technical expertise who lead and manage critical systems, technical programs, and capabilities throughout the fleet. Both programs provide the opportunity for outstanding senior enlisted personnel to compete for a commission. Participants are required to complete the requirements listed within Parts I through IV in a 4 week course of instruction at Officer Training Command.

APPENDIX H

SEAMAN TO ADMIRAL - 21st CENTURY

Seaman to Admiral – 21st Century (STA-21) is a multi-year program that selects Fleet sailors without a degree and allows them to earn a commission while concurrently earning a bachelor's degree from a college or university affiliated with a NROTC unit.

STA-21 selectees attend 8 weeks of Naval Science Institute (NSI) at Officer Training Command, prior to assignment at an NROTC unit for degree completion and commissioning. The NSI course builds upon previous naval experience and is designed to teach each selectee the fundamental core concepts of officership and the high ideals of a military officer. STA-21 selectees are then assigned to the NROTC unit for drill, physical training, and receive two courses in leadership prior to commissioning.

STA-21 selectees are required to complete the requirements listed within Parts I through VI in order to receive a commission.

APPENDIX I

FEEDBACK PROCEDURES

A. This appendix provides for a Professional Core Competencies Manual feedback/response system whereby individual units, ISICs, training commands, and enterprises may routinely communicate in a forthright and constructive dialogue through either of two methods: (1) email NSTC_LSO@navy.mil or (2) standard message format.

B. Feedback:

1. Any unit may initiate a query about any aspect of the Professional Core Competencies Manual or make a recommendation for its improvement. These inputs should be sent directly to NSTC and USNA for consolidation and analysis. The following standard message format is provided:

FM (Submitting Command)
TO USNA ANNAPOLIS
NSTC GREAT LAKES IL
INFO (Chain of Command)
(Classification)
MSGID/GENADMIN/(Originator)//
SUBJ/PROFESSIONAL CORE COMPETENCIES FEEDBACK REPORT
REF/A/DOC/USNA/NSTC/AUGUST 2015
REF/B/(As Necessary)
NARR/PROFESSIONAL CORE COMPETENCIES MANUAL. (Other
references).//
POC/(Point of Contact)
RMKS/1. Briefly state problem or query (ensure remarks include area of PCC
affected).

2. Recommend corrective action.//

United States Navy Ethos

We are the United States Navy, our Nation's sea power — ready guardians of peace, victorious in war.

We are professional Sailors and Civilians—a diverse and agile force exemplifying the highest standards of service to our Nation, at home and abroad, at sea and ashore.

Integrity is the foundation of our conduct: respect for others is fundamental to our character: decisive leadership is crucial to our success.

We are a team, disciplined and well-prepared, committed to mission accomplishment. We do not waiver in our dedication and accountability to our Shipmates and families.

We are patriots, forged by the Navy's core values of Honor, Courage and Commitment. In times of war and peace, our actions reflect our proud heritage and tradition.

We defend our Nation and prevail in the face of adversity with strength, determination, and dignity.

We are the United States Navy
