

Naval Education and Training Security Assistance Field Activity Strategic Plan

Commanding Officer's Message

CAPTAIN DANIEL W. "JINX" TESTA
Commanding Officer, Naval Education and Training Security Assistance Field Activity

The attached strategic plan is an update to the Naval Education and Training Security Assistance Field Activity 2020-2025 Strategic Plan and it will provide our strategic focus for the next two years. The plan is nested in current strategic guidance provided by Director, Navy International Programs Office and by Commander, Naval Education and Training Command.

The plan will ensure we are aligned as a staff in all aspects of the planning, programming, financial management, and execution of the Navy's Security Cooperation education and training programs. The inclusive nature of the plan's wording is meant to evoke a strong sense of purpose for what we do in the accomplishment our mission.

We will execute our mission with the following three strategic pillars as our foundation: (1) Building Trust; (2) Increasing Performance; and (3) Closing Gaps. In addition to the strategic pillars the plan's four strategic themes will serve as guideposts to ensure unity of effort, provide context for decision-makers, and to focus our efforts in order to excel in mission execution and fulfil our vision.

Every high performing organization has engrained in its culture a set of guiding principles that direct the actions of its workforce. These principles generally reflect the beliefs of top leadership. In order to accomplish our mission, we must all work together. Our strategic contains seven guiding principles for us to embrace. Like a chart used for navigation, these guiding principles will direct our actions as we navigate toward our shared vision.
