I have examined the student named on this form and completed the preparticipation physical evaluation. The athlete does not have apparent clinical contraindications to practice and can participate in the sport(s) as outlined on this form. A copy of the physical examination findings are on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the medical eligibility until the problem is resolved and the potential consequences are completely explained to the athlete (and parents or guardians).

Notes:

* DTaP does not meet the requirement for the TDaP vaccine. DTaP is given to children younger than 7 and is a series of 5 doses given at 2, 4, 6, 15-18 months, and 4-6 years old. After age 7, TDaP is administered.

** Meningococcal B is optional and DOES NOT cover serogroups A,C,W, and Y. The meningococcal ACWY shot is a MANDATORY REQUIREMENT in order to attend NSI. The meningococcal ACWY shot is also know as MCV4, Menveo, MenQuadfi, Menactra, Menomune and MenHibrix.

If you submit proof of vaccination that states "Meningococcal" only we will not accept it.

*** If you have proof of an MMRV vaccine, this shot meets the requirement of both the MMR and Varicella vaccine.

IMPORTANT: If you are seeking a religious accommodation for vaccines and you do not have the four required vaccines, you WILL NOT attend NSI. For more information about religious accommodations, please contact (847) 505-9876.

The laboratory values in this report represent screening test results and are intended to identify infants at risk for selected disorders and in need of more definitive testing. "Normal" refers to the analyte measured. The above results should be correlated clinically with consideration of age at the time of collection, nutrition, birth weight, prematurity, health status, and treatments. Rescreening of infants that were initially tested before 24 hrs of age is recommended, if warranted clinically. Performance characteristics were determined by MDCH.
