FOREWORD

This document was prepared for submission to higher authority for approval. The curriculum outline is a planning document for development of specific training material used to conduct the course of instruction. It lists course units and lesson topics in their sequential order with accompanying learning objectives. The outline organizes the course of instruction for U. S. Naval Surface Rescue Swimmers and ensures all required subject matter is adequately covered in the course. The course curriculum outline consists of course data, student data, outline of instruction, equipment requirements list, training materials list, skills profile and master course schedule. This is a high-risk course.

The purpose of the course is to promote standardization of Search and Rescue (SAR) swimmer procedures and to establish a minimum SAR training program for personnel assigned Rescue Swimmer duties. This training is considered to be a minimum for initial rescue swimmer training. Commands are encouraged to supplement this training with additional lectures and material pertinent to local mission requirements.

All terminal and enabling objectives are to be completed with 100% accuracy.

COURSE DATA

Course Title:

Surface Rescue Swimmer School

Course Identification Number (CIN):

A-050-0500

Course Data Processing Code (CDP) by Site: CDP

- | | | |
|----|---|------|
| 1. | COMHELMARSTRIKEWINGLANT,
NAS Jacksonville, FL | 889Y |
| 2. | Center for Surface Combat Systems,
Naval Station San Diego, CA | 6952 |

Course Status:

Revision

Course Mission Statement:

The Surface Rescue Swimmer School (SRSS) is designed to provide Navy, USMC (E-1/E-9), MSC personnel, and designated Army personnel with knowledge and skills necessary to initially qualify as Search and Rescue Swimmers, including water entry, first aid, CPR, parachute disentanglement, and waterborne lifesaving procedures under all environmental conditions. Upon completion of this course, the Surface Rescue Swimmer is prepared for assignments with surface units to provide Rescue Swimmer duties.

Occupational Classification:

NEC 0170

Prerequisites:

1. Physical within one year as per Manual of Medical Department. Section III and Art 15-71 and a physical screening within three months of class convening date.
2. All students must pass the RSS physical readiness examination screening (PRES), which consists of the following:

62 sit-ups	2 minutes maximum
52 push-ups	2 minutes maximum
1.5 mile run	12 minutes maximum
400m swim	11 minutes maximum
3. Fleet RSS inputs must possess a page 13 service record entry by the TYCOM SAR Evaluator certifying the member's satisfactory completion of RSS PRES requirements.
4. Commanding Officer's recommendation.
5. No conviction by Court Martial and not more than one NJP in the 18 months preceding the class convening date.
6. All students shall become second-class swimmer qualified prior to arriving at Surface Rescue Swimmer School.
7. Cannot have attrite by means of Drop On Request (DOR) from any High-Risk training course within the past two years. This requirement is waiverable by the CCMM on a case-by-case basis.

NOTE: All students shall complete prerequisites prior to entering Rescue Swimmer School.

Planned Course Length:

26 Calendar days

Current Course Length:

26 Calendar Days

Training Site:

1. Commander Helicopter Maritime Strike Wing
U.S. Atlantic Fleet
Naval Station Mayport
Jacksonville, FL 32228-0007
2. CSCS, Learning Cite, San Diego
Naval Station
San Diego, CA 92136-5035

Site Unique Training Considerations:

None

<u>Number of Convenings by Site:</u>	<u>Current</u>	<u>Planned</u>
1. Jacksonville, FL	10	10
2. San Diego, CA	8	8

<u>Class Capacity by Site:</u>	<u>Current</u>	<u>Planned</u>
1. Jacksonville, FL:		
a. Maximum	30	30
b. Normal	24	24
c. Minimum	8	8
2. San Diego, CA:		
a. Maximum	30	30
b. Normal	24	24
c. Minimum	8	8

NAVAVSCOLSCOMINST 1550.7A

<u>Planned Average on Board by Site:</u>	<u>Current</u>	<u>Planned</u>
1. Jacksonville, FL	24	24
2. San Diego, CA	24	24

Instructor/Support Manning:

See Instructional Management Plan, Annex E.

STUDENT DATA

Personnel Physical Requirements:

All students will meet physical requirements listed in OPNAV Instruction 3130.6 and NAVMED P-117, Manual of Medical Department. All students shall meet minimum body fat standards as outlined in OPNAVIST 6110.1.

Security Clearance Required:

None

Obligated Service:

In accordance with MILPERSMAN.

NOBC/NEC Earned:

0170

BLANK PAGE

CURRICULUM OUTLINE OF INSTRUCTION

UNIT 1.0: Rescue Swimmer School (RSS) Overview/Course
Introduction

Contact Periods: 2.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Completely supported by this unit:

1.0 Upon completion of this unit of instruction, the student will define the requirements for Rescue Swimmer School training, the Drop on Request (DOR)/Training Time Out (TTO) policies, and safety procedures used during Surface Rescue Swimmer training.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 1.1: Rescue Swimmer School Overview/Course Introduction

Contact Periods: 1.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

1.0 Upon completion of this unit of instruction, the student will define the requirements for Rescue Swimmer School training, the Drop on Request (DOR)/Training Time Out (TTO) policies, and safety procedures used during Surface Rescue Swimmer training.

Enabling Objectives:

Completely supported by this lesson topic:

- 1.1 Cite OPNAVIST 3130.6 and NTTP 3-50.1 series requirements for RSS training.
- 1.2 Explain all safety precautions used during RSS training.
- 1.3 State the remedial training policy.
- 1.4 State the DOR/TTO policies and procedures.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 1.2: Pool Safety Regulations

Contact Periods: 1.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 1.0 Upon completion of this unit of instruction, the student will define the requirements for Rescue Swimmer School training, the Drop on Request (DOR)/Training Time Out (TTO) policies, and safety procedures used during Surface Rescue Swimmer training.

Enabling Objectives:

Completely supported by this lesson topic:

- 1.5 Cite general pool safety regulations per Rescue Swimmer School Standard Operating Procedures (SOP).

CURRICULUM OUTLINE OF INSTRUCTION

UNIT 2.0: Physical Conditioning

Contact Periods: 1.0 Classroom, 31.5 Laboratory, 3.5 Exam

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Completely supported by this unit:

- 2.0 Upon completion of this unit of instruction, the student will achieve and maintain a level of physical conditioning and proficiency that will enable satisfactory performance of rescue swimmer duties in a swimming pool, or open ocean, while wearing appropriate Rescue Swimmer equipment as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series, without injury to personnel or damage to equipment.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 2.1: Principles of Physical Fitness and Dry Land Conditioning (PF&DLC)

Contact Periods: 0.5 Classroom, 18.0 Laboratory, 3.5 Exam

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

2.0 Upon completion of this unit of instruction, the student will achieve and maintain a level of physical conditioning and proficiency that will enable satisfactory performance of rescue swimmer duties in a swimming pool, or open ocean, while wearing appropriate Rescue Swimmer equipment as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series, without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 2.1 State the fundamentals of physical conditioning.
- 2.2 Perform proper physical conditioning exercises and Physical Training Level 1, 2 and 3.
- 2.3 Explain the importance of proper technique and form when utilizing weight lifting equipment.
- 2.4 Review proper techniques for developing and maintaining overall muscular strength utilizing weight lifting equipment.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 2.2: Swimming Proficiency and Conditioning (SP&C)

Contact Periods: 11.0 Laboratory

Media: Practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

2.0 Upon completion of this unit of instruction, the student will achieve and maintain a level of physical conditioning and proficiency that will enable satisfactory performance of rescue swimmer duties in a swimming pool, or open ocean, while wearing appropriate Rescue Swimmer equipment as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series, without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

2.5 Perform swimming, proficiency and conditioning drills and timed swim evolutions.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 2.3: Open Water Laboratories

Contact Periods: 0.5 Classroom, 2.5 Laboratory

Media: Lecture with practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

2.0 Upon completion of this unit of instruction, the student will achieve and maintain a level of physical conditioning and proficiency that will enable satisfactory performance of rescue swimmer duties in a swimming pool, or open ocean, while wearing appropriate Rescue Swimmer equipment as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series, without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

2.6 Explain how the performance of rescue swimmer skills is affected by current, sea state, visibility, sea life, swimmer buoyancy, and other variables encountered in the open water environment.

2.7 Perform basic rescue swimmer skills in the open water environment under daytime and nighttime conditions.

CURRICULUM OUTLINE OF INSTRUCTION

UNIT 3.0: Lifesaving and Parachute Disentanglement

Contact Periods: 9.0 Classroom, 27.5 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this unit:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 3.1: Approaches and Carries

Contact Periods: 1.0 Classroom, 5.0 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objective:

Completely supported by this lesson topic:

3.1 List procedural steps for rescue swimmer approaches to, and carries of, an active/passive/unconscious survivor.

3.2 Demonstrate rescue swimmer approaches to, and carries of, an active/passive/unconscious survivor in a simulated rescue situation in accordance with NTTP 3-50.1 series.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 3.2: Releases and Escapes

Contact Periods: 1.0 Classroom, 5.0 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objective:

Completely supported by this lesson topic:

3.3 List procedural steps for rescue swimmer head hold releases and escapes.

3.4 Demonstrate rescue swimmer head hold releases and escapes in a simulated rescue situation in accordance with NTTP 3-50.1 series.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 3.3: Water Entry Indoctrination

Contact Periods: 1.0 Classroom, 2.0 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 3.5 List procedures for day or night water entry from ship/rescue boat per NMP 3-50.1.
- 3.6 Perform day or night water entry from ship/rescue boat per NMP 3-50.1.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 3.4: Parachute Canopy Escape

Contact Periods: 1.0 Classroom, 2.0 Laboratory

Media: Lecture with demonstration

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

3.7 List procedural steps for parachute canopy escape.

3.8 Perform a hand-over-hand escape from under a collapsed parachute.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 3.5: Disentanglement Procedures (Free-Floater/
Helicopter Aircrew)

Contact Periods: 1.5 Classroom, 5.5 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

3.9 List disentanglement procedures in both day and night conditions for survivors both with and without aircrew survival equipment.

3.10 Demonstrate disentanglement procedures in both day and night conditions for survivors both with and without aircrew survival equipment.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 3.6: Disentanglement Procedures (Back Pack)

Contact Periods: 1.0 Classroom

Media: Lecture with demonstration

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

3.11 List disentanglement procedures for personnel wearing U. S. Navy Back Pack parachute assembly.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 3.7: Disentanglement Procedures (Jet)

Contact Periods: 1.5 Classroom, 6.0 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

3.12 List disentanglement procedures for personnel wearing jet aircraft survival equipment.

3.13 Demonstrate disentanglement procedures for personnel wearing jet aircraft survival equipment in day/night conditions.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 3.8: Combative Survivor

Contact Periods: 1.0 Classroom, 2.0 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 3.14 Describe characteristics of a panicking survivor.
- 3.15 State procedures for survivor emergency floatation for both conscious and unconscious.
- 3.16 Demonstrate emergency floatation procedures for conscious and unconscious victims in a simulated rescue situation.
- 3.17 List procedural steps for a combative survivor.
- 3.18 Demonstrate combative survivor procedures in a simulated rescue situation.
- 3.19 State modified recovery procedures for a combative survivor.
- 3.20 Demonstrate modified recovery procedures for a combative survivor in a simulated rescue situation.
- 3.21 State procedures for providing care for a combative survivor while aboard the rescue platform.
- 3.22 Describe appropriate combative survivor hand signals.
- 3.23 Demonstrate appropriate combative survivor hand signals.

CURRICULUM OUTLINE OF INSTRUCTION

UNIT 4.0: Rescue Equipment and Procedures for Use

Contact Periods: 11.5 Classroom, 27.0 Laboratory, 18.0 Exam

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this unit:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.1: Rescue Swimmer's Equipment

Contact Periods: 1.0 Classroom

Media: Lecture with demonstration

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 3.24 State requirements for the maintenance of rescue swimmers equipment per current NAVAIR 13-1-6 series manuals/Maintenance Requirement Cards (MRC's).
- 3.25 Explain the functional operation of rescue swimmer's equipment.
- a. Wet Suit
 - b. Mask, Fins, and Snorkel
 - c. Rescue swimmer harness
 - d. LPU-28 (SAR-1)
 - d. HBU-11

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.2: Mask, Fins, and Snorkel

Contact Periods: 1.0 Classroom, 2.0 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 3.26 Demonstrate procedures for donning mask, fins, and snorkel and procedures for clearing the mask and snorkel.
- 3.27 Perform side/crawl strokes while wearing mask, fins, and snorkel.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.3: Primary Rescue Devices and Procedures

Contact Periods: 1.5 Classroom, 9.0 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 3.28 Explain the functional operation of the following Rescue Devices per NTTP 3-50.1:
- a. Double Rescue Hook
 - b. Modified Rescue Strop
 - c. Rescue Litter/SAR MEDEVAC Litter, Trail Line and Gloves
- 3.29 Demonstrate procedures for placing a survivor into the following rescue devices in a water environment:
- a. Double Rescue Hook
 - b. Modified Rescue Strop
 - c. Rescue Litter/SAR MEDEVAC Litter
 - d. Rescue Litter Sling Assembly

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.4: Alternate Rescue Devices

Contact Periods: 1.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate the proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

3.30 State the requirements for maintenance of emergency rescue equipment per NTTP 3-50.1,NAVAIR 13-1-6 series and current maintenance requirement cards (MRC's).

3.31 Describe the functional operation of the following Emergency Rescue Equipment per NTTP 3-50.1:

- a. V-Blade rescue knife
- b. Grapnel Hook
- c. Boat hook
- d. Level "A" Medical Kit
- e. Life rafts
- f. Heaving line
- g. Tending line
- h. Life rings
- i. Chemical Light Strap
- j. Chemical Lights
- k. Blanket

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.5: Aviation Life Support Systems

Contact Periods: 1.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 3.0 Upon completion of this unit of instruction, the student will demonstrate the proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 3.32 Explain the functional operation and hardware associated with various parachute harnesses.
- 3.33 List the types of harnesses outlined in NTTP 3-50.1.
- 3.34 Describe the procedures for donning/doffing the following assemblies:
- a. Helmet assemblies
 - b. RSSK assemblies
 - c. Oxygen mask assemblies
 - d. Survival vest/flotation assemblies

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.6: Survivor Marker Locator Devices

Contact Periods: 1.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate the proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 3.35 Explain the purpose and hazards of the following Survivor Marker/Locator devices per NTTP 3-50.1:
- a. MK-25 Marine Location Marker
 - b. MK-58 Marine Location Marker
 - c. Electric Marine Marker Light
 - d. MK-13/MK-124 MOD 0 Day/Night Distress Flare
 - e. MK-79 Pencil Flare
 - f. Signal Mirror
 - g. Sea Dye Marker

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.7: SAR Publications and Reports

Contact Periods: 1.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objective:

Completely supported by this lesson topic:

3.36 Identify title and content of publications applicable to a rescue swimmer.

3.37 Complete the steps to complete a rescue report SAR FORM 30-50-1/1 when given a rescue scenario.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.8: Rescue Boat Operations

Contact Periods: 1.0 Classroom

Media: Lecture with practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

3.38 List all procedures and equipment used for the rescue of an aviator by rescue boat.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.9: SAR Tactics

Contact Periods: 2.0 Classroom, 10.0 Laboratory, 18.0 Exam

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objective:

Completely supported by this lesson topic:

- 3.39 State the five stages of Search and Rescue operations.
- 3.40 Describe SAR area conditions, and survivor conditions which will allow for the execution of a multiple victim rescue.
- 3.41 Develop a rescue plan to affect a rescue of multiple survivors, when given a rescue scenario.
- 3.42 Describe procedures for recovery of survivors from a motor whale boat/RHIB, and forecastle.
- 3.43 Identify hand signals applicable to the specific rescue, when given a rescue scenario.
- 3.44 Demonstrate procedures for parachute disentanglement of multiple victims in a simulated rescue scenario.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 4.10: Inanimate Object Recovery

Contact Periods: 1.0 Classroom, 6.0 Laboratory

Media: Lecture with practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 3.0 Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 3.45 List the procedures for recovering a REXTORP/Drone.
- 3.46 List the safety precautions for recovering a REXTORP/Drone.
- 3.47 Perform procedures for recovering a REXTORP/Drone.

CURRICULUM OUTLINE OF INSTRUCTION

UNIT 5.0: First Aid and American Red Cross CPR for the Professional Rescuer.

Contact Periods: 10.5 Classroom, 15.5 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Completely supported by this unit:

4.0 Upon completion of this unit of instruction, the student will identify and treat medical emergencies using approved SAR medical equipment, as per NAVEDTRA 14295 and NTTP 3-50.1 manuals, without injury to personnel or damage to equipment.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 5.1: American Red Cross CPR For The Professional Rescuer

Contact Periods: 4.0 Classroom, 6.0 Laboratory

Media: Lecture with demonstration

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

4.0 Upon completion of this unit of instruction, the student will identify and treat medical emergencies using approved SAR medical equipment, as per NAVEDTRA 14295 and NTTP 3-50.1 manuals, without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

4.1 State CPR procedures per current American Red Cross CPR For The Professional Rescuer standards (or equivalent).

4.2 Demonstrate CPR procedures per current American Red Cross CPR For The Professional Rescuer standards (or equivalent).

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 5.2: Level "A" Medical Kit

Contact Periods: 1.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

4.0 Upon completion of this unit of instruction, the student will identify and treat medical emergencies using approved SAR medical equipment, as per NAVEDTRA 14295 and NTTP 3-50.1 manuals, without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

4.3 List the contents of the Level "A" medical kit.

4.4 State the purpose of each item in the Level "A" medical kit.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 5.3: Practical First Aid

Contact Periods: 2.0 Classroom

Media: Lecture

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

4.0 Upon completion of this unit of instruction, the student will identify and treat medical emergencies using approved SAR medical equipment, as per NAVEDTRA 14295 and NTTP 3-50.1 manuals, without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

4.5 Explain the purposes of first aid.

4.6 List the different types of injuries and the appropriate treatment for each.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 5.4: Primary Survey

Contact Periods: 2.0 Classroom, 8.5 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

- 4.0 Upon completion of this unit of instruction, the student will identify and treat medical emergencies using approved SAR medical equipment, as per NAVEDTRA 14295 and NTTP 3-50.1 manuals, without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

- 4.7 List the procedures used in a primary survey.
- 4.8 Demonstrate primary survey procedures used in a mock trauma (moulage) scenario.

CURRICULUM OUTLINE OF INSTRUCTION

Lesson Topic 5.5: Secondary Survey

Contact Periods: 1.5 Classroom, 1.0 Laboratory

Media: Lecture with demonstration and practical application

Security Classification: Unclassified

Terminal Objective:

Partially supported by this lesson topic:

4.0 Upon completion of this unit of instruction, the student will identify and treat medical emergencies using approved SAR medical equipment, as per NAVEDTRA 14295 and NTTP 3-50.1 manuals, without injury to personnel or damage to equipment.

Enabling Objectives:

Completely supported by this lesson topic:

4.9 List the procedures for a secondary survey.

4.10 Demonstrate secondary survey procedures in a mock trauma (moulage) scenario.

ANNEX C

SKILLS PROFILE

SURFACE RESCUE SWIMMER SCHOOL

CIN: A-050-0500

CDP: 889Y, 6952

<u>OBJ</u>	<u>WT</u>	<u>SKILL OR KNOWLEDGE ITEM</u>
1.0	.01	Upon completion of this unit of instruction, the student will define the requirements for Rescue Swimmer School training, Drop on Request and Training Time Out policies, and safety procedures used during Surface Rescue Swimmer training.
2.0	.29	Upon completion of this unit of instruction, the student will achieve and maintain a level of physical conditioning and proficiency that will enable satisfactory performance of rescue swimmer duties in a swimming pool or open ocean, while wearing appropriate Rescue Swimmer equipment as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series, without injury to personnel or damage to equipment.
3.0	.55	Upon completion of this unit of instruction, the student will demonstrate proper rescue techniques of military and civilian personnel, day or night, utilizing appropriate SAR equipment for at-sea rescues as outlined in NTTP 3-50.1 and OPNAVINST 3130.6 series, without injury to personnel or damage to equipment.
4.0	.15	Upon completion of this unit of instruction, the student will identify and treat medical emergencies using approved SAR medical equipment, as per NAVEDTRA 14295 and NTTP 3-50.1 manuals, without injury to personnel or damage to equipment.

ANNEX D

MASTER COURSE SCHEDULE

The Master Course Schedule is the basic guideline for the scheduling of all SRSS students. The Training Chief Petty Officer (TCPO) shall submit a schedule to the Leading Chief Petty Officer (LCPO) for approval on each class assigned. The TCPO may rearrange the order of topics presented to best utilize available assets, ensuring that all topics are scheduled and completed.

WEEK 1 (A-050-0500)

Length of period : 50 minutes

Topic		Curriculum				
<u>Day 1</u>	<u>No</u>	<u>Type</u>	<u>Period</u>	<u>Lesson Topic Title</u>	<u>Ratio</u>	<u>Hour</u>
	2.1	Class	1	Principles of Physical Fitness	30:1	0.5
	2.1	Lab	2	Principles of Physical Fitness and Dry Land Conditioning (PF&DLC)	30:4	1.0
		Lab	3		30:4	0.5
	1.1	Class	4	Overview/ Class Intro	30:1	1.0
	1.2	Class	5	Pool Safety Regs.	30:1	1.0
	4.1	Class	6	Rescue Swimmer's Equipment	30:1	1.0
	4.7	Class	7	SAR Publications	30:1	1.0
	4.6	Class	8	Survivor Marker Locater Devices	30:1	1.0
	5.2	Class	9	Level "A" Medical Kit	30:1	1.0
<u>Day 2</u>	4.2	Class	10	Mask, Fins and Snorkel	30:1	1.0
		Lab	11	Mask, Fins and Snorkel	30:5 (5:5)	1.0
		Lab	12		30:5 (5:5)	1.0
		Lab	13		30:5

TRAINING HOUR SUMMARY

1. Scheduled Training Time (hours)

<u>Subject</u>	<u>Class</u>	<u>Lab</u>	<u>Exam</u>	<u>Total</u>
a. RSS Overview/Course Introduction Weapons Management	2.0			2.0
b. Physical Conditioning	1.0	31.5	3.5	36.0
c. Lifesaving and Parachute	9.0	27.5		36.5
d. Rescue Equipment and Procedures for Use	11.5	27.0	18.0	56.5
e. First Aid and ARC CPR for the Professional Rescuer	10.5	15.5		26.0

TOTAL 157.0

2. Scheduled Administrative Time (Hours) 3.0

3. Total Training Time

a. Weeks	4
b. Days	26
c. Hours	160

ANNEX E

INSTRUCTIONAL MANAGEMENT PLAN

Course Management Data

1. Staff Requirements

Based on planned student input of 300 per year, Rescue Swimmer School (RSS) requires 28 military personnel. Billets must be structured with one division officer, one assistant division officer, one leading chief, one student control chief, 20 instructors experienced in fleet Rescue Swimmer duties, two fleet experienced corpsmen, two parachute riggers, and one yeoman.

<u>Billet</u>	SEC <u>NEC</u>	<u>Grade</u>	<u>Branch</u>	PRI <u>NEC</u>	<u>Requirements</u>
Division Officer	NA	O-4	USN	NA	1
Leading Chief	0170/ 7815/ 8215	E-8	USN	9502	1
Training Chief	0170/ 7815/ 8215	E-7	USN	9502	1
Instructor	0170/ 7815/ 8215	E-6	USN	9502	2
Instructor	0170/ 7815/ 8215	E-5	USN	9502	18
Corpsman/ Instructor	8401	E-6	USN	9502	1
Corpsman/ Instructor	8401	E-5	USN	9502	1
Parachute Rigger	NA	E-6	USN	NA	2
Yeoman/Civilian (Typing)	NA	E-4/ GS	USN	NA	1

NOTE: Billets at the San Diego, Ca site will not be shared with another course. Billets at the Jacksonville, FL site are shared with the Rescue Swimmer Refresher course, CIN Q-050-0604.

Staffing Requirements Matrix for Training Evolutions

<u>Evolution</u>	<u>Staff</u>	<u>Qty</u>
<u>Classroom:</u>	Primary Instructor	1
ARC CPR Professional Rescuer	American Red Cross Instructor Additional Instructor (One per six students for lab)	1
<u>Lab Evolutions:</u>

	Training Safety Monitor	1
	Safety Observer	1
	EMT (Note D)	1

NOTES:

A. Additional instructor shall be fully qualified instructor or lifeguard on pool deck ready to administer assistance.

B. One fully qualified instructor in the pool-wearing mask, fins, snorkel and either a wet suit or an LPU-28 over PT attire acting as a safety swimmer and instructor for each group, one instructor for each student being evaluated.

C. One fully qualified instructor in the water-wearing mask, fins, snorkel and either a wet suit or an LPU-28 over PT attire acting as a safety swimmer and instructor for each group.

D. Minimum of one Hospital Corpsman (HM) or State or Nationally certified Emergency Medical Technician (EMT) must be present in the RSS training facility during all pool training sessions and be available during outdoor evolutions. This individual may also act as safety observer, if qualified per Rescue Swimmer School Training Program (RSSTP) Job Qualification Requirements (JQR). During OWL, shall remain in training area throughout the lab evolution.

E. Additional instructors required as per guidelines in staffing matrix for evolution being performed.

F. During OWL, a communication watch will remain in the facility next to the main radio and act as a communication relay incase of a mishap.

G. During OWL, an additional safety swimmer (qualified rescue swimmer) shall be in the safety boat. Additionally, this individual shall perform the duties as OWL safety observer.

Instructors may demonstrate skills as a rescuer while using a student as a survivor. Because of their superior aquatic skills, instructors shall not NORMALLY assume the role of survivor. However, instructors may act as survivors for extra instruction only after all other means of instructions have

failed and only with the permission of the Training Safety Monitor.

Staff Responsibilities during Training Evolutions

Primary Instructor (PI): Responsible for trainee instruction and safety. Conduct laboratory/classroom evolution.

Additional Instructor (AI): Positioned in accordance with staff requirements matrix. Use of a rescue device is mandatory. Provide water safety and life saving aid as necessary. Provide individual instruction and lesson plan reinforcement in support of PI.

Training Safety Monitor (TSM): Responsible for the expedient and safe conduct of the entire evolution. Responsible for safety of all participants. Responsible for execution of Emergency Action Plan (EAP). During EAP, responsible to delegate all tasks required to maintain direct control of situation. During OWL, maintains radio communications with Safety Boat and shore. TSM shall remain in training area during all in-water evolutions.

Safety Observer (SO): Observe training evolution; bring all safety related concerns to the attention of the PI and TSM. Assist TSM with execution of EAP, ensure all required life saving equipment is brought to the scene of the emergency.

2. Facilities Requirements The classrooms shall meet the following requirements:

a. Proper temperature control, ventilation, and lighting.

b. Training Aids (Audiovisual equipment and Visual displays) as required in lesson plan and Annex's for RSS curricula.

c. Sufficient quantities of "Ready for Training" aviation life support equipment and lifesaving equipment to properly conduct the training required by the curriculum.

d. Physical Training:

(1) Should be conducted on soft level surfaces when possible. If conducted on a hard surface (i.e., concrete) closed cell foam rubber mats shall be issued to students.

(2) Running courses shall be wide enough to accommodate running formations (two abreast) free from hazards, obstructions, irregular surfaces, sharp turns and at pace/distance in accordance with lesson plan.

(3) Running courses should be on smooth, firm (sand, beach, chip trail, grass, dirt) surfaces. Hard surfaces (concrete, asphalt, etc) should be avoided as much as possible.

(4) Running formations shall not be in close proximity to heavy traffic where the speed limit is 36 miles per hour or greater.

(5) Running formations shall not utilize roadways, as a running course, where the speed limit is 20 miles per hour or greater.

3. Training Pool Requirements

a. Markings:

(1) One foot variations in pool depth shall be marked on the pool deck. Indoor pool markings may also be placed on adjacent walls. Outdoor pool depths may be mounted on perimeter fences at the pool deck edge.

(2) Swim lanes should be marked on the pool bottom.

b. The main drain should be clearly marked with colored tile, or the grating should be painted a conspicuous color.

c. Provide clean, adequately sized dressing and rest room facilities to include a designated area to lock up valuables. Floors shall be disinfected daily with an approved (e.g., 50 ppm chlorine) solution.

d. Provide hot water showers (not exceeding 100°F) with soap dispensers.

e. Pool water should be maintained in accordance with Chapter four of NAVMED P-5010.

(1) Temperature - 78° to 84°F (recommended).

(2) Water shall be free of suspended matter. A four-inch diameter black on white disk on the pool bottom in the deep end shall be clearly visible from the pool deck. Training shall be suspended until water clarity meets minimum standards. The main drain should always be visible.

f. A fixed or portable audible alarm to signal pool evacuation. A whistle or air horn is sufficient. Students shall be briefed on the signal and what action to take.

g. A Portable Emergency Medical Oxygen Resuscitation System. Oxygen cylinder size no smaller than size "D".

h. The following equipment shall be pool side, ready for immediate use and shall be inspected prior to each training session:

(1) U.S. Coast Guard approved ring buoys with manila or polypropylene retrieving lines. Retrieving lines shall be 1/4" diameter and approximately 50 feet in length.

(2) Safety swimmer shall use American Red Cross approved rescue tubes (Torpedo buoys may be substituted).

(3) A fully equipped backboard (full head restraint with two straps to secure victim's head to board and cervical collar, at a minimum, four straps required to secure victim's body to board).

(4) A first aid kit, at a minimum, a Level "A" or equivalent.

i. A telephone shall be immediately accessible with emergency numbers posted nearby.

j. Ear wash (to prevent ear infection) shall be available. An acceptable solution is 2% acetic acid, 3% distilled water and 95% isopropyl alcohol.

k. A portable emergency lighting system shall be present during all night training (i.e., battle lanterns, flashlights, etc.).

l. A ventilated drying space, support equipment, and tools shall be available for maintaining training gear. Maintenance equipment should include:

- (1) Sewing machine.
- (2) Vacuum system (to deflate life rafts, LPU's).
- (3) Hand tools.
- (4) Spare parts.

4. Required Equipment for Pool Evolutions (ALL GEAR WILL BE READY FOR TRAINING) Flight and Rescue Swimmers equipment used in RSS training will be maintained per CNET Instruction 3710.1 and labeled "For Training Use Only".

- a. Wetsuit.
- b. Booties and fins.
- c. HBU-11/P (Surface Harness).
- d. LPU-28/P or an LPU series life preserver.
- e. Face mask and snorkel.
- f. Student PT shirt and shorts.

NOTE

With the exception of items d and f, required equipment shall be worn to maximum extent practical in support of terminal and enabling objectives. Items d and f shall be worn during all pool evolutions.

5. Alternate Training Plan Students must complete all course objectives in order to graduate. Students must receive all lesson plan presentations. If a laboratory application must be cancelled (due to inclement weather, equipment malfunctions, etc.), students must complete the Alternate Training Plan as specified in the lesson plan. A request for waivers must be submitted to the Course Curriculum Model Manager in any event where external factors (e.g. weather, medical) preclude the students from participating in or completing training periods where the course objectives have been accomplished.

6. Safety

a. The primary instructor is responsible for ensuring that all necessary precautions are taken before High-Risk and PT evolutions commence. All participating staff shall be briefed on the conduct of the evolution, roles to be filled, and responsibilities in the event of a mishap. Prior to pool evolutions, the primary instructor shall ensure that lifesaving equipment is available and operable, and that supplemental oxygen is provided.

b. Ensure heat index does not preclude physical activity per command guidelines. Ensure physical training area, running courses and pool meet standards of this document. A corpsman (or EMT) with medical kit shall be in the immediate vicinity of all training/testing; an ambulance shall be on call.

c. Student Mishap/injury. Anytime a student has a mishap or is injured, instructors shall remove student from training, complete a Personal Accident Injury Notification form and notify the Chain of Command.

d. A designated instructor shall be in close enough proximity to see and hear the students at all times during the course of instruction of a High-Risk training evolution.

e. Drop on Request (DOR)/Training Time Out (TTO) policies and procedures shall be conducted IAW with OPNAV Instruction 1500.75 and CNET Instruction 1500.20 series.

f. Hyperventilation prior to underwater swimming evolutions.

(1) Students participating in underwater evolutions shall be instructed that hyperventilation (repetitive deep breathing) to achieve underwater swimming endurance can result in

NAVAVSCOLSCOMINST 1550.7A

shallow water blackout and drowning. Competitive breath holding skills/drills and intentional hyperventilation is prohibited.

(2) All underwater swimming evolutions shall be limited to a maximum distance of 25 yards while wearing mask and fins.

(3) Instructors, safety swimmers/divers shall be alert for and rescue students who they consider are not making satisfactory progress or appear to be under water longer than is safe.

g. Professional conduct All students and instructors will conduct themselves in a highly professional manner. Hazing through the use of improper or degrading rituals is strictly prohibited.

7. Emergency Action Plan A local Emergency Action Plan shall be developed and implemented per OPNAV Instruction 1500.75 series.

8. Emergency Drills Emergency drills shall be conducted per CNET Instruction 1500.20 series.

9. Safety Standdown Policy Safety Standdown procedures are as follows:

a. Annual Safety Standdowns shall be conducted per CNET Instruction 1500.20 series.

b. Site Commanding Officers are encouraged to conduct additional standdowns and course reviews, particularly when courses have been revised, or when a "near miss" incident has occurred.

10. Safety Management for High Risk Courses Safety management shall be per CNET Instruction 1500.20 series.

11. Student Flow Management Data

a. Graduation Students are graduated upon successful completion of course curriculum requirements.

b. All students who report to RSS for training must successfully pass the RSS PRT, at the training site, prior to entering the course.

c. Academic Progress. Written exams require a minimum score of 80% to pass. Students who fail an exam will be:

(1) Debriefed by the Instructor.

(2) Given academic counseling.

(3) Assigned additional study.

(4) Retested as soon as possible. Students who fail a

re-test shall be referred to an Academic Review Board (ARB).

d. Pool Progress. Students failing to meet minimum swim performance in the training tank shall be referred to the Training Chief Petty Officer for a review of the problem. The Training Chief Petty Officer can:

- (1) Assign remedial swim instruction or
- (2) Recommend the student be referred to an ARB.

e. PT Progress. Students who do not successfully complete any of the physical training enabling or terminal objectives shall be referred to the Training Chief Petty Officer for a review of the problem. The Training Chief Petty Officer can:

- (1) Assign remedial PT instruction or
- (2) Recommend the student be referred to an ARB.

f. Remediation. Remedial training, up to two hours additional instruction daily, may be assigned; however, a minimum of 10 hours shall elapse between the additional instruction and the next scheduled event. Students failing to meet minimum levels of performance shall:

(1) First occurrence - be assigned individual additional instruction as determined and documented by the Training Chief Petty Officer.

(2) Second or subsequent occurrences - appear before an ARB to determine if further training is warranted.

Note

For remedial swim additional instruction, all safety precautions shall be observed per this instruction.

12. Roll Back to Another Class If the Academic Review Board (ARB) determines further training is warranted, student shall be rolled back to the next available class, after completion of any remedial training mandated by the ARB.

13. Dropped from Training for Academic or Suitability Reasons If ARB determines no further training is warranted, student will be removed from training and returned to parent command or made available for orders.

14. Instructor Certification Program Instructor Certification Program shall be per the NAVEDTRA 135 and the Rescue Swimmer School Training Program (RSSTP) Job Qualification Requirements (JQR).

15. Basic High Risk Instructor Guidelines

a. All High Risk Instructors shall be screened IAW OPNAV Instruction 1500.75 and CNETINST 1500.20 series.

b. Shall meet the requirements found in the RSSTP JQR.

c. Individuals must be robust, confident, mature and stable.

16. Training Safety Monitor shall meet the requirements found in the RSSTP JQR.

17. Safety Observer shall meet the requirements found in the RSSTP JQR.

18. Hospital Corpsmen (HM) shall meet the requirements found in the RSSTP JQR.

19. Record Keeping

a. Class rosters, showing training received, grade achieved, shall be retained for a period of four years.

b. Medical Record Screening DOR/TTO Statement forms shall be maintained for 72 hours after completion of training.

c. Injury logs, reports and records shall be attached to a copy of the class roster and retained for five years at the site.

d. Student Critiques shall be routed through the immediate chain of command and retained from site evaluation to site evaluation.

20. Quarterly Reports

a. Submission Requirements - Submit within 10 working days of end of quarter to:

Commanding Officer
Attn: CODE N3D3, Model Manager Division
NAVAVSCOLSCOM
181 CHAMBERS AVE SUITE C
PENSACOLA, FL 32508-5221

b. Reports contents:

(1) Breakdown of students trained in each curriculum by site for the fiscal year quarter just completed.

(a) Total students reported.

(b) Prerequisite attrition.

(c) Total students enrolled.

(d) In course attrition:

(1) DOR

(2) Medical

(3) Other (ARB, Disciplinary)

(e) Total graduates.

(f) Currently in training.

(g) Mishaps/Injuries.

(2) Listing of all instructor billets followed by the name of the instructor filling each billet and his/her projected rotation date (PRD).

(3) List the status of all outstanding discrepancies from the last RSS evaluation. The report shall consist of four columns: Discrepancy, Status, Estimated Completion Date, and Remarks (to include actions taken to correct discrepancies).

(4) A brief narrative of each training related injury, giving date, course, Lesson Plan, the nature and extent of the injury, any contributing factors, and lessons learned from mishap investigation and analysis. Injuries requiring documentation on RSS Quarterly Reports and reports to the functional commander are those where emergency care, lost work time or medical officer follow-up is required. Negative reports are required.

(5) Enter the following student breakdown for the fiscal year:

(a) Total students reported.

(b) Prerequisite Attrition.

(c) Total students enrolled.

(d) In-course attritions.

(e) Total Graduates.

(f) Currently in training.

(g) Mishap/Injuries.

21. Prerequisite Screens

a. All prospective students must be screened for all course prerequisites (as listed in the Student Data Page of this document and in the CANTRAC). A prospective student may not be enrolled in an RSS course without meeting all prerequisites or receiving a waiver from governing authority. Prospective

students on Permanent Change of Station (PCS) orders failing prerequisites shall be referred to their detailer for disposition. Prospective students on Temporary Assigned Duties (TAD) orders failing prerequisites shall be returned to their parent command and a message stating which prerequisites were

NAVAVSCOLSCOMINST 1550.7A

failed shall be generated (copy to RSS Model Manager). Details of the medical and physical fitness prerequisite screens follow.

b. Medical Screening shall be administered by a Training Facility corpsman prior to administering the RSS PRT. Questionable cases shall be referred to a medical officer. The following screening procedures shall be followed:

(1) Review last physical.

(a) Ensure a full physical, per article 15-71 of the Manual of Medical Department, NAVMED P-117, signed by a Medical Officer, performed within one year of enrollment.

(b) Ensure no disqualifying or questionable conditions documented.

(2) Interview Student

(a) Question student per the Risk Factor Questionnaire, OPNAVINST 6110.1 series.

(b) Ask student if he/she is aware of any physical conditions that would preclude safe participation in an RSS course.

(3) Document Screen

(a) In student's training jacket, document "Medical screen complete, student fit for training", sign and date.

c. Physical Fitness Prerequisite Screens All candidates shall conduct the SRSS Physical Readiness Examination Screening (PRES) with the TYCOM screening authority and conduct a Physical Readiness Assessment Screening (PRAS) with the training site before enrolling into SRSS. This assessment is designed to protect the schoolhouse and the student. Primarily, it ensures that a student is "fit to train" - he/she is physically able to safely complete this high-risk course. Furthermore, it ensures that every student enrolled has the physical skills required to successfully complete the training.

(1) Conduct of PRES In order to best meet the objectives of the Physical Readiness Examination Screening, the following order shall be followed and time between exercises minimized.

Warm-up/flexibility routine.

Instructor demonstrates correct form for curl-ups and push-ups per OPNAVINST 6110.1 and OPNAVINST 3130.6 series.

1st Group - perform curl-ups exhibiting correct form
(Second group perform curl-ups.)
Minimum of 62 curl-ups in 2 minutes

1st group - perform push-ups exhibiting correct form
(Second group perform push-ups.)
Minimum of 52 push-ups in 2 minutes maximum

All student candidates complete 1.5 mile timed run in less than 12 minutes.

All student candidates complete 400-meter timed swim in less than 11 minutes. (Backstroke not authorized)

(2) The screening will be completed as rapidly as possible, with a ten-minute maximum period, to change clothing and hydrate, between the run and swim.

(3) Conduct of PRAS In order to best meet the objectives of the Physical Readiness Assessment Screening, the following order shall be followed and time between exercises minimized.

Warm-up/flexibility routine.

Instructor demonstrates correct form for pull-ups, curl-ups and push-ups per OPNAVINST 6110.1 and OPNAVINST 3130.6 series.

1st Group - perform pull-ups exhibiting correct form
(Second group perform pull-ups.)
Minimum of 2 pull-ups in 2 minutes

1st group - perform curl-ups exhibiting correct form
(Second group perform curl-ups.)
Minimum of 50 curl-ups in 2 minutes maximum

1st group - perform push-ups exhibiting correct form
(Second group perform push-ups.)
Minimum of 42 push-ups in 2 minutes maximum

All student candidates complete 1.5 mile timed run in less than 12 minutes.

All student candidates complete 400-meter timed swim in less than 11 minutes. (Backstroke not authorized, Navy swimsuit and swim goggles only).

(4) Staffing Qualified Rescue Swimmer Instructor shall administer the test. There must be sufficient instructors monitoring the pull-ups, push-ups and curl-ups to ensure all student candidates perform them correctly. All training

NAVAVSCOLSCOMINST 1550.7A
evolutions shall be conducted in accordance with Staff
Requirement Matrix.
